PURE Reader Test Plan:	1.4-3

As tested in:

Terminal Name & Version:	Samsung Galaxy, version: S10
OS:	Android 10
Terminal Product Type:	Integrated Reader
Level 1 Approval Number:	NA

Dear Ms. Maalouf Yahchouchi,

PayCert has received a request, submitted by eMcREY Limited, your company, for the Certification of the Kernel product Gemalto PURE 2.1 v1.0.13, hereafter referred to as the Product and identified above as "Apex SoftPOS".

In connection with your request, we have received your Implementation Conformance Statement (ICS), referred to as EMC.KER.218.2020-045A and we have assessed your Test Report (ref. C20REP01-678 v1.0), which was generated by FIME EMEA, following the *PURE Contactless Reader/Kernel Test Cases* version 1.4.3.

After assessing such file in the Certification Evaluation Report (ref. PURE/EVR/KER/2020-042 v1.0.0), PayCert has found reasonable evidence that the submitted samples of the Product complies to the

PURE contactless reader Specifications for PURE Dual-Interface Cards & Mobile PURE version v2.1.8),
hereafter referred to as the "Reference Specification".

PayCert hereby grants the Product Certification of compliance with the requirements stated by the
Reference Specification, and will include your Product in the certified products list, published on
PURE Certification website (www.pure-payments.com).

Please note that PayCert's Certification is subject to the following terms and conditions as listed
hereafter:

   i) If the Product is changed, eMcREY Limited must notify PayCert of this fact in writing. Any change
in the Product that may generate a different behaviour with respect to the Reference Specification or
a difference in the Product Implementation Conformance Statement will be considered a major
modification subject to a new evaluation in order to maintain the present Certification.

   ii) The Present Certification granted to eMcREY Limited for the above referenced Product is non-
transferable to any other vendor.

   iii) Under no circumstances does this certification letter include or imply any product or service
warranties from PayCert, including without limitation, any implied warranties of merchantability,
fitness for purpose, or non-infringement, all of which are expressly disclaimed by PayCert.

   iv) The Present Certification is not an assessment of the product's security level or Level 1
compliance. It is the responsibility of the certificate's user to make sure the results of all assessments
are still valid at the time of the product's approval or issuance.
   As the Product is a SoftPOS Kernel, SoftPOS specific CVM, such as Cardholder PIN verification on
screen, is therefore outside of the scope of the Present Certification.

The Certification Body has the right to terminate or revoke the Certification should any of the
aforementioned terms and conditions be not respected.
